A STEAMBOAT MODEL MADE BY ABRAHAM LINCOLN.—The Washington correspondent of the Boston Advertiser says:

Occupying an ordinary and commonplace position in one of the show cases in the large hall of the Patent Office is one little model which in ages to come, will be prized as at once one of the most curious and one of the most sacred relics in that vast museum of unique and priceless things. This is a plain and simple model of a steamboat roughly fashioned in wood by the hand of Abraham Lincoln. It bears date in 1849, when the inventor was known simply as a successful lawyer and rising politician of Central Illinois. Neither his practice nor his politics took up so much of his time as to prevent him from giving much attention to contrivances which he hoped might be of benefit to the world and of profit to himself.

The design of this invention is suggestive of one phase of Abraham Lincoln's early life, when he went up and down the Mississippi as a flatboatman, and became familiar with some of the dangers and inconveniences attending the navigation of the Western rivers. It is an attempt to make it an easy matter to transport vessels over shoals and snags and sawyers. The main idea is that of an apparatus resembling a noseless bellows, placed on each side of the hull of the craft just below the water line, and worked by an old but not complicated system of ropes, valves and pulleys. When the keel of the vessel grates against the sand or obstruction, the bellows are to be filled with air—and thus buoyed up, the ship is expected to float lightly and gaily over the shoal which would otherwise have proved a serious interruption to her voyage.

The model which is about eighteen or twenty inches long, and has the air of having been whittled with a knife out of a shingle and a cigar box, is built without any elaboration or ornament, or any extra apparatus beyond that necessary to show the operation of buoying the steamer over the obstructions. Herein it differs from very many of the models which share with it the shelter of the immense halls of the Patent Office, and which are fashioned with wonderful nicety and exquisite finish, as if much of the labor and thought and affection of a lifetime had been devoted to their construction. This is a model of a different kind; carved as one might imagine a retired railsplitter would whittle, strongly but not smoothly, and evidently made with a view solely to convey, by the simplest possible means, to the minds of the patent authorities, an idea of the purpose and plan of the simple invention. The label on the steamer's deck informs us that the patent was obtained—but we do not learn that the navigation of the Western rivers was revolutionized by this quaint conception. The modest little model has reposed here sixteen years and since it found its resting-place here on the shelf the shrewd inventor has found it his task to guide the ship of state over shoals more perilous and obstructions more obstinate than any prophet dreamed of when Abraham Lincoln wrote his bold autograph on the prow of this miniature steamer.

SEVENTEEN THOUSAND PERSONS STARVED TO DEATH AT ANDERSONVILLE.—The Port Royal New South, of May 6th, speaks of the arrival at Jacksonville of squads of the 3,200 prisoners who were coming in. The rebels finding it impossible to feed them, brought them so near our lines and turned them loose. Most of them have arrived, and they were being [illegible] Ab[illegible] twenty were left at Andersonville, too sick to be removed. There died at that prison in eleven months of the year ending January, 1865 as follows: February, 1864, 1; March, 282; April 575; May, 708; June, 1,201; July, 1,748; August, 2,991, September, 2,677, October, 1,595; November 494, December, 168; January, 1865, 199. Total, 12,940. The total number who have died at Andersonville since the establishment of that infernal pen exceeds 17,000.

FRIDAY MORNING JUNE 21 186[illegible]

The Real Sources of our Wealth

From the earliest settlement of Oregon the attention of the people has been drawn away from those pursuits which most consist with their true interests. Enterprises of various kinds, chiefly such as are connected with mining, have been extensively entered into. By reason of this the people have been kept in continual agitation. Instead of a community of workers we are and have been a community of adventurers and speculators. The unsettled habits of great numbers of our people have apparently almost disqualified them for any steady employment. The rage for great and sudden gains is so strong as to preclude all contentment unless the occupation is such that chances are afforded by it for becoming wealthy at once. Not a few of our people act as if they considered gold to be the only instrument of wealth and the search for it to be the only employment which promises remuneration. The very reverse of all this is precisely true. Had there been no gold fields near our doors we should be the richer far to-day. Attention would then have been turned to the sure and more general sources of wealth which exist in our State and are only waiting to be opened. The moment we commence working in earnest at home, prosperity will begin; so long as we engage in visionary schemes which have for their object the acquisition of wealth without labor, and which necessitate our running hither and thither as rumor or imagination directs we shall accomplish nothing of value for ourselves or the State. It is the patient and steady laborer who is sure to accumulate at last, while the success of most others depends on merely adventitious circumstances which may or may not occur.

What we wish to suggest to the people, just now, is the propriety of their engaging hereafter in enterprises which shall not tend to enrich others abroad, at their expense, but which may develop our wealth at home. There are a thousand ways in which capital could be employed with a greater ultimate profit to the country and to its possessors, than by investing it in some speculative scheme abroad. We want ships of our own; there are railroads to be built; the navigation of our rivers is to be improved; agriculture is to be aided and developed. There is a mountain of iron at our very doors, which contains more wealth than the quartz ledges of the Columbia. And if there be some who are determined to search for gold, the prospects are as favorable in the mountains near us, as in the regions so far away. The Santiam district has not yet been half examined. [illegible] of rich deposits of the precious metals, are very favorable there. But as a [illegible] source of wealth, all the gold we can derive from the mines which surround us, is not to be compared with the value of the multifold productions which intelligent labor, aided by capital may enable our State to afford. We hope to see hereafter, amongst the people, a clearer appreciation of what it is necessary to do, in order to build up the true interests of the State. At present the business of the State is not more stagnant than are the energies of the people. We do not expect Oregon to [illegible] importance in the commercial world, and grow rich at once, but we do hope not only to see flagging industry revive, but also to [illegible] a higher [illegible] of prosperity than the State has ever before known.

Letter from Florence City.

FROM OUR SPECIAL CORRESPONDENT

FLORENCE CITY, June 11 1865

I arrived in this camp on the last day of May,—came via the mouth of Slate Creek, and over the Florence mountain—found the trail but little difficult by reason of snow—came through on horse back—no snow on leaving the mountain. Camas Prairie was very dry, and grass-hoppers and crickets as thick as locusts in Egypt. Residents there inform me that they fear they will be very destructive the coming season. Some extensive fields of grain have been put in on the prairie this spring, and the productiveness of the soil of that section is proverbial.

A few farms are being cultivated near the mouth of Slate Creek on the river and creek bottoms. Here they raise a large quantity of vegetables which find a ready market in the Florence and Warren mines. Salmon river was at a high point when I passed it, and rising.

Cattle, horses and [illegible] have wintered well on Salmon river during the long winter. It is a warm and excellent winter range for stock. The hills on each side of the river for three or four miles up, are perpetually covered with good sweet grass, while the canyons and ravines afford an excellent shelter from the winds which, at times during the winter, prevail.

Vegetables of all kinds are in an advanced state at the mouth of Slate Creek, and corn is nearly a foot in hight.

This camp now contains about three hundred men, most of whom are miners. Mining is brisk by progressing, as the water is abundant. The water season is short for most of the claims, which demands active labor while it lasts. Most of the work now being done is upon ground heretofore worked; though some new ground is being opened. Bed rock flumes are quite numerous in the gulches. Much ground sluicing is being done. But few can work now as formerly to advantage and profit, with rockers. Hydraulic power is made use of in several claims where water can be had at a sufficient hight.

A ditch running upwards of one hundred inches of water has recently been conducted upon Summit Flat at a point about fifteen feet higher than water had been before brought. This ditch though small, yet will be of immense value to this camp as its water will reach a large amount of rich ground, hitherto untouched for want of this element.

A good saw mill capable of cutting about 7 000 feet of lumber in twelve hours has been put in successful operation on Meadow creek about five miles from town and a good wagon road constructed along that distance. Lumber for fluming is now furnished at $100 per thousand feet making a reduction of one third from the prices of last year.

Altogether this camp may be said to be flourishing and gives prospect of yielding well this season to the amount of labor expended. The diggings are mostly surface and hence it must last like the mines of Elk City and [illegible]. Some attention will be given to quartz prospecting this season as several leads are known to exist whose croppings are [illegible] of richness.

Labor in these mines commands a half [illegible] $6 per day. Flour is now selling at 26 [illegible] sugar 55 coffee [illegible], vegetables [illegible], and other goods in proportion. These prices will be reduced as soon as a few more trains arrive.

A mail route has been established between this point and Boise Basin via Warren's and I am informed that an express will [illegible] Warren's to Boise connecting with Dwight's Express from Lewiston.

There seems to be a general rejoicing here at the news of the capture of Jeff Davis and his confreres. His complicity with the assassination of Lincoln is doubted by some, but believed by many. The prospect of the end of this rebellion is inspiring to all. Idaho will have occasion to rejoice as much as any State or Territory in the end of the war. Her population will then be increased and the development of her riches be more rapid and certain.

NEW YORK, June 11.—The *Times'* [illegible] from Havana [illegible] ing the war between the Argentine Republic and Paraguay. [illegible] Mitre [illegible] the invasion of the Argentine Republic [illegible] Buenos Ayres [illegible] The [illegible] will be supplied by a National Guard. Foreign and native merchants are to hold a meeting for the purpose of offering a loan to the National Government. The *Tribune* says According to present appearances the war may become one of importance than any which has yet taken place in South America. The land forces of Paraguay are estimated by the Buenos Ayres *Standard* at 60 000. Those of the Allies the Argentine Republic and Uruguay we presume will reach 0 000. The greater number of these forces are yet to be raised while the Paraguay forces are already in the field. It is thought therefore that it may take a few months before the Allies can assume the aggressive. The combined population of the allied countries so far outnumbers that of Paraguay that the success of the latter would seem impossible. The Paraguayans hope they will find many allies in the northern provinces of the Argentine Republic and in Uruguay.

From the West Indies.

NEW YORK, June 11.—The *Moro Castle* brings Havana dates to June 10th. The evacuation of San Domingo by the Spaniards was to take place on the receipt of the first order. A number of persons loyal to Spain are leaving Santiago. Some were expected at Havana. The *Harriet*, *Wren*, and other blockade runners were to leave Havana for England to be sold. The rebel Gen Slaughter had arrived at Havana from Matamoras June 10th.

Progress of the Conspiracy Trials.

NEW YORK, June 15.—The *Tribune's* special dispatch says: By arrangement among counsel, the argument of Reverdy Johnson as to the jurisdiction of the court will be heard on Friday the 16th. This will be followed by the argument of Stone, counsel for Dr Mudd and Harrold on Saturday, the 17th. Cox will present a defence of O'Laughlin on Monday the 19th. Aiken will sum up finally on behalf of Mrs Surratt on Tuesday the 20th. Payne and Atzerott's counsel will present his arguments on Wednesday the 21st. Ewing sums up in behalf of Mudd, Spangler and Harrold. It is believed Judge Advocate Holt will present his final argument in behalf of the prosecution on the 24th, and on Monday following the Commission will conclude its work and the finding and the sentence. The sentence cannot under the rule, be promulgated until after it has been approved by the President, so that the end of the trial may not be reached before the 1st of July.

NEW YORK, June 15.—The *Tribune's* special dispatch says: Petitions for pardon from the leading men of the late rebellion are coming in by hundreds every day. Among the men of note whose petitions were received to day, are Major General Edward Johnson and Joseph R. Anderson of the Tredegar Iron Works. A clause is now inserted intended to prevent applicants from claiming in court exemptions from the operation of the confiscation acts, thus leaving the settlement of the matter of confiscation of rebel property to the courts and Congress thereafter when the facts are such as to call for relief.

Mutinous Spirit among Colored Troops.

NEW YORK, June 15.—The *World's* Washington special says: The final dissolution of the 20th army corps took place to day. A complete history of its organization was filed in the War Department. Twenty two regiments were mustered out from this corps in one day. The 15th is the last day on which all Major Generals and Brigadier Generals who are without commands, or not on detached service, can remain with that rank in the army. Butler and Banks go out of service under this order.

A Fortress Monroe correspondent of the Philadelphia *Enquirer* under date of the 13th says for some time a mutinous spirit has existed in the colored cavalry brigade belonging to the 25th corps, the men declaring that the Government had no right to send them to Texas. On the 12th when on board the steamer this spirit of discontent took the form of open mutiny. The vessel was run up to one of the wharves of the Fortress for assistance. Two companies of the 3d Pennsylvania artillery were sent on board, under command of Major Van Schilling. On approaching the vessel containing the mutineers, they threatened to fire. The Major resorted to strategy, and returning to the wharf, had the mutineers brought ashore under the guns of his men in parties of two and three at a time. Thus, they were all disarmed and returned again to the vessel. The effect will be only to prevent the second part of the expedition from sailing as soon as expected.

Condition of the Sewards.

WASHINGTON, June 15.—The condition of Fred Seward continues most encouraging. Secretary Seward's health continues to improve. He now regularly attends to business and converses cheerfully with friends though his jaw is still supported by an iron frame work.

A large number of refugees, white and black, are constantly returning South. Every day there are fresh arrivals here of former citizens who left Washington on the breaking out of the rebellion. Numerous applicants for pardon have been filed in the Attorney General's Office.

WASHINGTON, June 15.—It is not true that Gov Evans of Colorado has been removed.

The Rebels not yet Pacified.

NEW YORK, June 1[illegible].—The *Herald's* Richmond correspondent learns that there is a manifest disposition on the part of large land holders to encourage emigration from Europe to Virginia. Secretary Stanton.—Washington, May 19th.—The following testimony has just been taken before the Committee on the Conduct of the War, and has been furnished by them for publication:

TESTIMONY OF MAJOR GENERAL MEADE.

Question. You have been in the army almost since this war commenced, and have had intimate connection with or knowledge of the Army of the Potomac as a General; and for that reason I desire you to answer the following inquiry. In what manner has Stanton, as Secretary of War, performed his duties in regard to the supply of the army and the support of the military operations under your charge? A. [illegible] to my knowledge [illegible] and I have had many relations with the War Department, I can most cheerfully say that everything I have required or that I thought [illegible] has been promptly attended [illegible] Stanton as the head of the War Department.

Q. What do you say of the talent or ability with which Stanton has conducted the department? A. I consider the Department has been conducted with very great ability. There may have been some matters in which I may have differed with Mr. Stanton and might have criticised his [illegible] action.

Q. Speak of the general management of the [illegible] A. [illegible] the general management of the War Department [illegible] it has been conducted with great ability.

TESTIMONY OF LIEUT. GEN. GRANT.

Question. You have been Lieutenant General commanding for the last year past and more? A. Yes, sir.

I wish you to place upon record your answers to the following questions:

Q. In what manner has Stanton, Secretary of War, performed his duties in the supply of the military operations under your charge? A. Admirably. I think there has been no complaint in that respect—that is, no general complaint so far as he is concerned. I do not think there has been any ground for complaint in that respect.

Q. Has there been any misunderstanding with regard to the conduct of the war in any particular between you and the Secretary of War since you have been in command? A. Never any expressed to me. I never had any reason to suppose that any fault was found with anything I had done. So far as the Secretary of War and myself are concerned, he has never interfered with my duties, never thrown any obstacle in the way of any plans I have called for. He has never dictated a course of campaign to me, and never enquired what I was going to do. He has always seemed satisfied with what I did, and he heartily co-operated with me.

Sugar—there is more movement in refined, with sales from second hands of 250 bbls. second quality crushed at 14½@15c cash, and 100 bbls. from first hands at 15½c on time and 100 bbls. first quality on private terms, raw, quiet; 170 kegs medium Hawaiian brought 11c. Flour—old is irregular, and from present indications the decline will be very gradual. All depends, however, upon the receipts of new wheat. Golden Age, from new wheat, is selling at $10 per bbl. Wheat—sales of 1,100 sks new at 2½c per lb. Barley—sales of 100 sks new, delivered at Sacramento, at 1 11¼@1 00, ditto here at 1 12½ per 100 lbs. Oats—are in demand, and firm sales of 300 sks strictly prime at 1 80@1 70, common at 1 30 per 100 lbs. Potatoes—new, 2.75@2 7[illegible]. Wool—sales within the past four days include 2,200 lbs. 17@21c for ordinary to good shipping. Hides—sales of 1,200 dry at 12½@13c.

Legal tenders quoted at 73¼@74c.

The steamers Colorado and America are both due and hourly expected. The Sacramento will be due on Monday.

Sailed—the bark Violette, for Puget Sound.

Decay of the Teeth—Arises from various causes, but principally it may be attributed to early neglect, ill health, or the indiscriminate use of tooth powders containing mineral or deleterious acids, which give a momentary whiteness to the teeth while they corrode the enamel. The extreme prevalence of this last cause is too well known to need comment. To this fact indeed is principally to be attributed the long Botanical research which terminated in the greatest discovery ever given to the world for the preservation of the teeth and gums and purifying the breath, "Fragrant Sozodont."

Sold by Druggists and Fancy Goods Dealers everywhere. 75 cents per bottle.

Weekly Retail Family Market.

Thursday, June 22, 1865.

Local trade in general way is moderately active. Selling of new fruit, such as berries, have been rather free in their offers, and cherries and strawberries have not failed to recognize a decline in prices of last week.

There is a great difference in regard to the quality of strawberries offered, and prices range from 20 to 35 cents ℔ lb., the last quotation securing the best article. Cherries are abundant at 12 to 15 cents ℔ lb.

Green peas are plentiful at 7 cents, currants 35, and gooseberries 40 cents ℔ gallon.

Butter and eggs have a market value similar to the last quotations under which prices had improved a little. Fancy dairy butter commands 45 cents ℔ lb., although a choice article is retailed at 37½ cents. There is plenty in market. Eggs are 5 cents higher than previous quotations.

Vegetables are quiet though [illegible] offered at less than the current rates of our last report. Oregon vegetables come in very slowly, in fact the season appears to be about three weeks later than usual, and no material improvement is expected before the last of this month or the first of next.

Potatoes are scarce, the old crop being nearly exhausted, and buyers [illegible] $1 50 ℔ bush. [illegible] We publish [illegible] the retail rates. In jobbing old potatoes are worth [illegible] ℔ lb., new 7 cents.

Bacon is only selling in small jobbing quantities at nominal rates. Hams are maintained at previous quotations.

Provisions of all kinds are held with confidence and the market is [illegible] In fact no article has undergone any material change since our last.

Dyspepsia is the most complicated of all disorders, and most variable in its symptoms. Pain in the stomach, heart-burn, flatulence, cold extremities, constipation of the bowels, depression of spirits, capricious appetite, are all in turn the offspring of this protean disease. It is generally associated with feeble action of the liver, and often caused by its continued derangement. In such cases OSGOOD'S INDIA CHOLAGOGUE is an unfailing remedy. By restoring the liver to healthy action it removes the cause of the disease, the system is relieved of accumulated bile, and soon regains its digestive powers. Trial of the Assassins

WASHINGTON May 19.—Afterwards Rock was recalled and identified the rope found in Spangler's carpet bag.

William Eaton testified that he arrested Spangler at his boarding house in Washington

William Wallace testified that he arrested O'Laughlin on the 17th of April in Baltimore, on the way to the police [illegible] Spangler spoke of the assassination as a bad affair and denied that he had anything to do with it

James [illegible] carpenter at Ford's Theatre gave information about fitting up the box [illegible] dent [illegible] occupied Nothing specially important was elicited by his examination

The Court proceeded to the examination of Colonel R J Taylor, on duty at headquarters Department of Washington who testified that he received from Lieutenant Terril the paper found in Booth's trunk on the night of the 14th, written in Confederate cipher, gave it to Colonel Wells on April 15th

Charles Roach was cross examined by the Judge Advocate and testified that he went to Spangler's house after his arrest, and found a carpet bag with a rope in it eighteen feet long, the twist appeared to be taken out of it nothing else in the bag except some blank paper and a dirty shirt

Gifford stated that the decoration of the President's box was not in the line of Spangler's duties There was a gentleman there named Reybold whose duty it was to decorate the box but he had a stiff neck, so he told me afterwards When I asked him if I did not see him in the box, he said he was in the box but did not decorate it The last time witness saw Spangler in the evening was about half past nine o'clock, on the stage Booth had access to the theater by the back entrance at all times, and was on intimate terms with everybody there

Mrs Martha Murray wife of the keeper of the Clarendon House, recognized Payne as resembling the man who boarded there who left the house at 6 P. M., April 14th.

W. H Wells (colored) testified he was a servant in the house of William H Seward on the 14th of April, identified Payne when Payne came to the house, he rang the bell I went to the door this man came in he had a little package in his hand and said it was from Dr Verdi said he was sent by Dr Verdi, with particular instructions how he was to take it, and must go up I told him he could not go then he repeated the word over a good while " must go up must see him," I told him he could not, it was against my orders; that if he would give me the medicine I would tell how to take it, if he would leave the directions That would not do He started to go up, I slipped past him and went up stairs before him; I asked him to excuse me, I thought perhaps he would say I refused to let him come up; I thought he might be sent by Dr Verdi, and would tell Mr Seward I stopped him He said, "All right." I noticed his step was heavy, and asked him not to walk so heavy he would disturb Mr Seward; he met Frederick Seward on the steps and had some conversation with him in the hall, he said to F Seward he wanted to see W H Seward, F Seward told him he could not see him; his father was asleep at the time; to give him the medicine; he would take it to his father. That would not do; he must see him. He kept saying he must see him, and Frederick said I am Mr. Seward's son; if you cannot leave it with me, you cannot leave it at all He had a little more talk, still holding his package. F[illegible] [illegible] would not let him see him any way He started to go down stairs before him he had gone about three steps and turned, saying, don't walk so heavy. By the time I had turned he jumped back and struck Frederick Frederick had fallen and threw up his hands, Then I ran down stairs and hallooed murder I went to the front door and cried murder. I ran to General Augur's headquarters, saw no one on guard and came back. By that time three soldiers had come out of the building and followed me I had got about half way back, when I saw this man run and get on a horse He had on a light overcoat and no hat. He had on a hat when he came into the house. I had not seen the horse at all before. I hallooed to the soldiers, "There he is getting on his horse." He got on the horse and started off, and I followed as far as the corner of C. and Fifteenth streets. He turned up Beamont avenue, and lost sight of him He struck Frederick with something round and mounted with silver. I took it to be a knife afterward. I saw him raise his hand twice He hit him twice, and then I ran down stairs. Witness also testified having subsequently recognized Payne at General Augur's headquarters

Sergeant G F. Robinson testified to having been in attendance as nurse to Seward. Recognized Payne as resembling the person he saw there I first heard scuffling in the hall, and opened the door to see what the trouble was. He stood close up to it. As soon as it was opened wide enough, he struck me and knocked me down, and then rushed to Seward's bed and struck him. As soon as I could get on my feet, I endeavored to haul him off the bed, and he turned upon me. Then there was a man came in the room, who clutched him between the two of us We got him to the door, or by the door, when he clinched his hand around my neck, knocked me down, broke away from the other man, and rushed down the stairs. He struck me the first time with a knife, and the last time with his fist He stabbed me in the forehead. I saw him cut Seward twice he struck beyond his neck the first time, then he struck him on the neck.

Major Seward, son of the Secretary, was sworn and identified Payne as the man who was at his father's on the night of the 14th of April, He had retired about 11 o'clock, and a short time after was aroused by the scream of his sister He arose and seized the man, who struck the witness with a decanter from the table, and made use of the words " I am mad, I am mad " When near the door, as witness was pushing him, he saw by the light in the hall that he was tall, large, and had black hair and no beard Got a pistol and rushed down to the front door. After witness' own wounds were dressed, he went into his father's room, and saw he had a large gash on the cheek, one on his throat, and one under his head Witness was satisfied the prisoner at the bar was the same man.

A witness named Morgan, testified as follows: He said he had no previous acquaintance with Mrs Surratt She knew from his walking in the neighborhood, that he was a poor man, and came to him to do work. The oath of allegiance contained the name of Lewis Payne Farquis. He said he was from the South, and left there in February that he had to leave or go in the army; he preferred to earn a living by the pickax, and said he could not read, but could manage to write his name. I told him he would have to go to the Provost Marshal's office, and explain. He moved a little at that, but did not answer. The prisoner and Mrs. Surratt had no conversation at the time of the arrest. Witness found some papers and photographs at the house of Mrs Surratt, including Booth, Jeff Davis, Beauregard; also, found a card with a picture on it, and " Thus will it ever be with tyrants," Virginia the Mighty *Sic semper tyrannis.*"

Major Smith testified that he was in charge of the party who took possession of Mrs Smith's house; saw her after the arrest of Payne He asked Mrs. Surratt if she knew Payne She said raising her right hand. " Before God, I don't know this man, and have never seen him " Mrs Surratt did not even ask for what she was arrested, she expressed no surprise or feeling when I rang the bell. Mrs. Surratt opened the window and said Is that you Kirby? The reply was that it was not Kirby, but open the door I went into the hall, and said, Are you Mrs Surratt She replied I am the widow of J H Surratt, and I added, mother of J H Suratt, Jr? She replied, I am I said I have come to arrest you and am in your house

On cross-examination, witness identified a large gray, dirty sack coat as worn by Payne, the night of his arrest, but another coat smaller cleaner and of a bright gray, being produced he said that was the coat He recognized it by the buttons all that was wanting in the other coat

Surgeon-General Barnes testified to the character of the wounds received by the Sewards

Thomas Price testified to picking up a coat on the 16th of April in the woods between Fort Bunker Hill and Saratoga Two coats were shown the witness, one Confederate gray, and the other a checkered green color. Witness identified the latter as the one picked up It had traces of [illegible] on the sleeves

THE CAPTURED REBEL LEADERS —Governor Vance of North Carolina was arrested at the house of his father in law in Buncombe county in that State, on the 12th of May A correspondent says it is understood that he was arrested in accordance with the orders received from Washington and that he will be taken to that city to be tried for treason.

Governor Brown of Georgia arrived at Louisville, Ky , on the 16th of May He was arrested on the night of the 9th, at the Executive Mansion at Milledgeville, by Captain Kneeland and Lieut Dnyard

The following particulars of the capture of Jeff Davis are given by a South Carolina correspondent of the New York *Herald*:

"Mrs Davis preceded her husband until he crossed the North Carolina line where she rejoined him

"Just before Davis reached Greensboro he was almost surrounded by a detachment of Stoneman's cavalry, who might easily have caught him had they known who he was After leaving Danville Davis intended going immediately and directly for [illegible] On arriving at Johnston's headquarters [illegible] the terms of the convention between Sherman and Johnston [illegible] he would [illegible] the country he altered his [illegible] It was pointed out [illegible] it was dangerous for him to do so but he invariably replied that he had too many friends and knew the country too well to be caught by any of the [illegible] of the Yankee army.

"Jeff Davis remained at Charlotte until twelve o'clock on the day that the armistice expired At eleven o'clock [illegible] his horses [illegible] At twelve, having learned the terms of the [illegible] convention were [illegible] he and his friends and officials rode off with some two thousand cavalry, under command of Brig General Dibbrell [illegible] with him acting in the capacity of an escort

That night Davis reached the vicinity of Lexington [illegible] The next morning [illegible] breakfast with James [illegible] ex-member of the United States Congress and one of the body who styled themselves Confederate States Congress [illegible] strongly in favor of [illegible]

In passing through Lexington Davis was introduced by Judge Freeman of Mississippi who was traveling with him to Dr Dusenbury a native of the place The Doctor invited Davis in to take a drink of apple brandy and he did so A brief conversation ensued

The Doctor remarked " Mr Davis our cause is lost."

Davis replied, " Our cause may be lost but the principle for which we were contending will present itself at another time in another shape "

He meant that there would yet be a conflict between the great agricultural interest of the South and the manufacturing and commercial interests of the North and Northwest

The conversation continuing Dr Dusenbury again observed

" The masses of the people of the South were not prepared for self government "

[illegible] replied by saying " Unfortunately it was "

During the whole conversation Davis looked careworn fatigued and dispirited He complained of suffering severely from neuralgia

Davis' Private Secretary told a friend that one hundred and fifty thousand dollars would cover all the specie they had with them "

MOTTO —"The Singer Sewing Machines are the only Machines that can Sew all kinds of Cloth, and with all kinds of Thread

Singer's Letter A Family Machine is the best and cheapest Machine in the world for Family Sewing There is no doubt as to the value of our Machines for manufacturing purposes, but it is only of late that the public has come to learn that the essential elements of a Machine [illegible] would also be the elements [illegible] embodied in a Family Machine

We would ask for our **Letter A** Machines the attention of Vest Makers and Dress Makers and all those who want Machines for Light Manufacturing Purposes. They embody the principles of the Manufacturing Machines, making, like them, the interlocked stitch, and are [illegible] to be as celebrated for FAMILY SEWING and Light Manufacturing purposes, as our Manufacturing Machines are for manufacturing purposes in general

FAMILY SEWING MACHINES are valuable [illegible] proportion to the number of things they can do well [illegible] what ours can do before making a purchase.

☞ All persons requiring information about Sewing Machines their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending for a copy of the SINGER MANUFACTURING COMPANY'S ILLUSTRATED PAMPHLET, which is entirely devoted to the subject IT WILL BE SENT GRATIS

ALLEN'S
LUNG BALSAM!

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,
Asthma, Croup,
Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing Diseases of the Lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it if only taken in time.

Messrs TILTON & McFARLAND

Gentlemen From representations made by Mr Lillie I was induced to purchase of him one of his

So Called " Fire Proof Safes"

On the 18th of February last a fire occurred in our block which destroyed a number of buildings, and our own with the rest We trusted our books, papers and all in the safe After the fire the so called Safe was taken from the ruins and on opening it we found that

Everything had been Destroyed.

We send you the safe with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight Having the curiosity to know how our neighbors fared in this fire we noticed McReards & Hardy just opening their safe (TILTON & McFARLAND'S make) and its contents were found to be

In Perfect Condition.

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs McR & H 's cellar—such as lard, pork, etc , their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had but little in the cellar There was another of Lillie's safes been subjected to the same fire faring, however no better then ours
Very respectfully
Your obedient servants
(Signed) GEO. H CHESBORO & CO

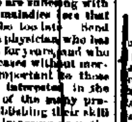
NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,



617 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet Stricture, Syphilis in all its forms, Seminal Weakness, Impotency etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated

DR GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year, during which time he has visited all the principal hospitals of Europe, among them those of Dublin, London and Paris The following celebrated hospitals of London are among those visited by the Doctor; Guy's, High street, Borough; St Bartholomew's, Smithfield; St. Mary's, Camb. Place, Pad ; Lock, Harrow road; St. Luke's, Old street, University, Gower street; Westminster, Broad Sanctuary, Charing Cross, Agar street; Strand, London, Whitechapel road, Royal Free, Gray's Inn roads King's College, Portugal street

DOCTOR GIBBON has also visited Doctors Acton of London, Parker of Birmingham, England, and Ricord of Paris, who are considered the best physicians and surgeons in the world, and whose authority is acknowledged to be the highest in the treatment of Sexual Diseases

DOCTOR GIBBON has obtained from them their new mode of treatment which cannot be surpassed

DOCTOR GIBBON has spared neither time nor money in seeking out new remedies, and has returned with new facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system? Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of those horrible life-destroying maladies. See that they are cured for and cured before it be too late Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important for those who are afflicted, or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures viz Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats monomania and frequent insanity If relief be not obtained should apply immediately, either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter through Wells Fargo & Co
